BACKGROUND INFORMATION

The potential conflicts information provided in this report is intended to be used as a means for each voting member to verify campaign contributions from their individual campaign records. The following information is considered to be complete only to the best knowledge that has been disclosed to staff by the following listed contractors and in many instances may not be complete as of the date of publication of the agenda. Staff will endeavor to provide updates and supplements to the disclosure information to the extent additional contractor disclosure information becomes known to staff at or prior to each particular meeting time.

In addition to other provisions of law which prohibit San Bernardino International Airport Authority (SBIAA) Commission members from having financial interests in the contracts of public agencies, the provisions of California Government Code Section 84308 prohibit individual SBIAA Commission members from participating in any Commission proceeding involving a license, permit, or other entitlement for use pending before the Commission, if the individual member has received a contribution of more than two hundred fifty dollars (\$250.00) within the preceding twelve (12) months or for three (3) months following any such Commission proceeding, from any person, company or entity who is the subject of the proceeding, including parent-subsidary and certain otherwise related business entities as defined in the California Code of Regulations, Title 2, Division 6, Section 18438.5, or from any person who actively supports or opposes a particular decision in the proceeding and who has a financial interest in such decision, as defined in California Government Code Section 87103.

The restrictions of Government Code Section 84308 do not apply if the individual member returns the contribution within thirty (30) days from the time they know, or should have known, about the contribution and the proceeding.

This agenda contains recommendations for action relative to the following contractors/principals and their respective subcontractors (as informed to SBIAA staff by the Principals):

CALIFORNIA CODES
GOVERNMENT CODE
SECTION 84308

84308. (a) The definitions set forth in this subdivision shall govern the interpretation of this section.

(1) "Party" means any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.

(2) "Participant" means any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision, as described in Article 1 (commencing with Section 87100) of Chapter 7. A person actively supports or opposes a particular decision in a proceeding if he or she lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.

(3) "Agency" means an agency as defined in Section 82003 except that it does not include the courts or any agency in the judicial branch of **government**, local governmental agencies whose members are directly elected by the voters, the Legislature, the Board of Equalization, or constitutional officers. However, this section applies to any person who is a member of an exempted agency but is acting as a voting member of another agency.

(4) "Officer" means any elected or appointed officer of an agency, any alternate to an elected or appointed officer of an agency, and any candidate for elective office in an agency.

(5) "License, permit, or other entitlement for use" means all business, professional, trade and land use licenses and permits and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor, or personal employment contracts), and all franchises.

(6) "Contribution" includes contributions to candidates and committees in federal, state, or local elections.

(b) No officer of an agency shall accept, solicit, or direct a contribution of more than two hundred fifty dollars (\$250) from any party, or his or her agent, or from any participant, or his or her agent, while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for three months following the date a final decision is rendered in the proceeding if the officer knows or has reason to know that the participant has a financial interest, as that term is used in Article 1 (commencing with Section 87100) of Chapter 7. This prohibition shall apply regardless of whether the officer accepts, solicits, or directs the contribution for himself or herself, or on behalf of any other officer, or on behalf of any candidate for office or on behalf of any committee.

(c) Prior to rendering any decision in a proceeding involving a license, permit or other entitlement for use pending before an agency, each officer of the agency who received a contribution within the preceding 12 months in an amount of more than two hundred fifty dollars (\$250) from a party or from any participant shall disclose that fact on the record of the proceeding. No officer of an agency shall make, participate in making, or in any way attempt to use his

or her official position to influence the decision in a proceeding involving a license, permit, or other entitlement for use pending before the agency if the officer has willfully or knowingly received a contribution in an amount of more than two hundred fifty dollars (\$250) within the preceding 12 months from a party or his or her agent, or from any participant, or his or her agent if the officer knows or has reason to know that the participant has a financial interest in the decision, as that term is described with respect to public officials in Article 1 (commencing with Section 87100) of Chapter 7.

If an officer receives a contribution which would otherwise require disqualification under this section, returns the contribution within 30 days from the time he or she knows, or should have known, about the contribution and the proceeding involving a license, permit, or other entitlement for use, he or she shall be permitted to participate in the proceeding.

(d) A party to a proceeding before an agency involving a license, permit, or other entitlement for use shall disclose on the record of the proceeding any contribution in an amount of more than two hundred fifty dollars (\$250) made within the preceding 12 months by the party, or his or her agent, to any officer of the agency. No party, or his or her agent, to a proceeding involving a license, permit, or other entitlement for use pending before any agency and no participant, or his or her agent, in the proceeding shall make a contribution of more than two hundred fifty dollars (\$250) to any officer of that agency during the proceeding and for three months following the date a final decision is rendered by the agency in the proceeding. When a closed corporation is a party to, or a participant in, a proceeding involving a license, permit, or other entitlement for use pending before an agency, the majority shareholder is subject to the disclosure and prohibition requirements specified in subdivisions (b), (c), and this subdivision.

(e) Nothing in this section shall be construed to imply that any contribution subject to being reported under this title shall not be so reported.

CALIFORNIA CODES
GOVERNMENT CODE
SECTION 87103

87103. A public official has a financial interest in a decision within the meaning of Section 87100 if it is reasonably foreseeable that the decision will have a material financial effect, distinguishable from its effect on the public generally, on the official, a member of his or her immediate family, or on any of the following:

(a) Any business entity in which the public official has a direct or indirect investment worth two thousand dollars (\$2,000) or more.

(b) Any real property in which the public official has a direct or indirect interest worth two thousand dollars (\$2,000) or more.

(c) Any source of income, except gifts or loans by a commercial lending institution made in the regular course of business on terms available to the public without regard to official status, aggregating five hundred dollars (\$500) or more in value provided or promised to, received by, the public official within 12 months prior to the time when the decision is made.

(d) Any business entity in which the public official is a director, officer, partner, trustee, employee, or holds any position of management.

(e) Any donor of, or any intermediary or agent for a donor of, a gift or gifts aggregating two hundred fifty dollars (\$250) or more in value provided to, received by, or promised to the public official within 12 months prior to the time when the decision is made. The amount of the value of gifts specified by this subdivision shall be adjusted biennially by the commission to equal the same amount determined by the commission pursuant to subdivision (f) of Section 89503.

For purposes of this section, indirect investment or interest means any investment or interest owned by the spouse or dependent child of a public official, by an agent on behalf of a public official, or by a business entity or trust in which the official, the official's agents, spouse, and dependent children own directly, indirectly, or beneficially a 10-percent interest or greater.

(Regulations of the Fair Political Practices Commission, Title 2, Division 6, California Code of Regulations.)

§ 18438.5. Aggregated Contributions Under Section 84308.

For purposes of Section 84308:

(a) Notwithstanding the provisions of Regulation 18215.1, to determine whether a contribution of more than \$250 has been made by any party to a proceeding, contributions made by a party's parent, subsidiary, or otherwise related business entity, (as those relationships are defined in subdivision (b) below), shall be aggregated and treated as if received from the party for purposes of the limitations and disclosure provisions of Section 84308.

(b) Parent, Subsidiary, Otherwise Related Business entity, defined.

(1) Parent-subsidiary. A parent-subsidiary relationship exists when one corporation has more than 50 percent of the voting power of another corporation.

(2) Otherwise related business entity. Business entities, including corporations, partnerships, joint ventures and any other organizations and enterprises operated for profit, which do not have a parent-subsidiary relationship are otherwise related if any one of the following three tests is met:

(A) One business entity has a controlling ownership interest in the other business entity.

(B) There is shared management and control between the entities. In determining whether there is shared management and control, consideration should be given to the following factors:

(i) The same person or substantially the same person owns and manages the two entities;

(ii) There are common or commingled funds or assets;

(iii) The business entities share the use of the same offices or employees, or otherwise share activities, resources or personnel on a regular basis;

1 (iv) There is otherwise a regular and close working relationship between the entities; or

2 (C) A controlling owner (50% or greater interest as a shareholder or as a general partner)

3 in one entity also is a controlling owner in the other entity.

Mr. Mark Cousineau, Director of Finance, shared a brief report on Agenda Item No. 8.

President Joe Baca Jr. inquired about the anticipated scope of the Hydrogen Project at the Airport and the potential benefits to airport operations.

Mr. Michael Burrows, Chief Executive Officer, provided an overview of the Hydrogen Project, explaining that it originated as a concept developed during a national competition for U.S. Department of Energy hydrogen hub designation. Although California's initial designation was later rescinded along with its associated funding, the Agency's work and progress on the concept continued. The project was subsequently restructured as a public-private partnership.

Mr. Burrows noted that, with the recently established lease agreement with Total Hydrogen, the Agency is working to advance the project toward implementation and bring hydrogen technology to the marketplace. He explained that the San Bernardino County Transportation Authority (SBCTA) and Omnitrans have invested in hydrogen technology, increasing the need for locally produced and distributed hydrogen to help reduce costs. Establishing a hydrogen facility near the Airport could support the development of alternative fuel transportation options and provide the Airport with additional revenue through ground lease payments and royalties, which could be reinvested in future airport improvements.

Vice-President Penny Lilburn inquired whether the Agency would be responsible for providing upfront funding for the Hydrogen Project.

Mr. Michael Burrows, Chief Executive Officer, explained that the Agency would provide upfront funding for the Hydrogen Project, with the investment expected to be recouped through lease revenue.

Mr. Burrows stated that, to his understanding, the project is fully reimbursable by the Agency's fuel provider, Titan, which serves as the primary financier for the project.

ITEM NO: 6

PRESENTER: Mark Cousineau, Director of Finance

SUBJECT: CONSIDER AND ADOPT PROPOSED BUDGET ADJUSTMENTS FOR FISCAL YEAR 2026-2027

SUMMARY

The proposed adjustments modify the adopted San Bernardino International Airport Authority's (SBIAA) budget to reflect improved estimates and changes in conditions in the accounts reflected in the Proposed Budget Adjustments Table.

RECOMMENDED ACTION(S)

Consider and adopt budget adjustments reflected in the Proposed Budget Adjustments Table for Fiscal year 2026-2027.

FISCAL IMPACT

The composition for the requested adjustments is detailed in the attached "Proposed Budget Adjustment Table". The combined net effect on the San Bernardino International Airport Authority's Fiscal Year 2026-2027 Budget, if approved, would be a net decrease in budgetary expense of \$71,922.

PREPARED BY:	Mark Cousineau
CERTIFIED AS TO AVAILABILITY OF FUNDS:	Mark Cousineau
APPROVED AS TO FORM AND LEGAL CONTENT:	Scott Huber
FINAL APPROVAL:	Michael Burrows

BACKGROUND INFORMATION

On June 24, 2026, the San Bernardino International Airport Authority (SBIAA) Commission adopted the SBIAA Budget for Fiscal Year 2026-2027. SBIAA staff determined the following adjustments are necessary based on changes since the budget was approved. Capital Project adjustments require Commission approval.

The net effect of the proposed budget adjustments is an increase of \$71,922 in budgetary expenses that will be funded through new revenues, cash on hand, and expense management.

The \$71,922 increase in budgetary expenses consists of an increase for aircraft rescue and firefighting (ARFF) services from \$2,733,282 to \$2,805,204 before in-kind credits.

The \$1,263,282 increase in budgetary revenues consists of \$1,263,282 of lease and license revenue from the license of approximately 15 acres, including the building and adjacent land at the former San Bernardino Regional Emergency Training Center site to San Bernardino County Fire Protection District (SBCFPD) at appraised market value.

Staff identified the following budget classes that require modification. They are described in the table below:

SAN BERNARDINO INTERNATIONAL AIRPORT AUTHORITY
FY 2026-2027 Proposed Budget Adjustments
October 2026

PROPOSED BUDGET ADJUSTMENTS TABLE

Proposed Adjustments			Budget Class	Approved Budget	Proposed Adjustments	Adjusted Budget
<i>Expenditures & Transfers Out</i>						
A	Airport Manager	57	- Other Expenses	6,142,816	1,335,204	7,478,020
					1,335,204	
<i>Revenues & Transfers In</i>						
A	Property Management	44	- Land & Non-Terminal Facility Leases and Licenses	16,961,961	1,263,282	18,225,243
					1,263,282	
					\$ (71,922)	

- A** \$71,922 net increase in ARFF service expense. SBCFCD will offset \$2,805,204 of annual 24/7 aircraft rescue and firefighting staffing services against \$1,263,282 of SBIAA lease license

revenue for use of the former San Bernardino Regional Emergency Training Center property. The balance then due and payable would be a net amount totaling \$1,541,922 payable in monthly installments of approximately \$128,493.50 as ARFF services are received.

Staff recommend that the Commission approve the above recommended action.

DATE: October 28, 2026

ITEM NO: 8

PRESENTER: Michael Burrows, Chief Executive Officer

SUBJECT: APPROVE THE FORM OF AN AIRCRAFT RESCUE AND FIREFIGHTING STAFFING SERVICES AGREEMENT WITH THE SAN BERNARDINO COUNTY FIRE PROTECTION DISTRICT

SUMMARY

Approval of this item will allow the San Bernardino County Fire Protection District (District) to continue to provide requisite aircraft rescue and firefighting staffing services to the San Bernardino International Airport which support commercial passenger and related airport operations.

RECOMMENDED ACTION(S)

Approve the form of an Aircraft Rescue and Firefighting Staffing Service Agreement with the San Bernardino County Fire Protection District; and authorize the Chief Executive Officer to execute all related documents.

FISCAL IMPACT

\$71,922 increase in budgetary expenses. The proposed agreement is a fee for services contract of \$2,805,204 whereby SBIAA provides for use of the Airport Fire Station and related apparatus in exchange for an offset from the District for fees due and payable by the District for use of the former San Bernardino Regional Emergency Training Center (under a separate previously approved license agreement) for \$1,263,282. The net amount due to the District for this Fiscal Year is \$1,541,922 which will be payable in equal monthly installments. Funding for this agreement is included in the approved San Bernardino International Airport Authority (SBIAA) Budget for FY 2026/27.

PREPARED BY:	Michael Burrows
CERTIFIED AS TO AVAILABILITY OF FUNDS:	Mark Cousineau
APPROVED AS TO FORM AND LEGAL CONTENT:	Scott Huber
FINAL APPROVAL:	Michael Burrows

BACKGROUND INFORMATION

Approval of this item will allow the San Bernardino County Fire Protection District (SBCFPD) to continue to provide requisite aircraft rescue and firefighting staffing services to the San Bernardino International Airport which support commercial passenger and related airport operations. This proposed agreement is an annual extension of prior contracts previously entered into by the San Bernardino International Airport Authority (SBIAA) dating back to 2018.

Partial consideration for this proposed agreement comes through an in-kind services approach whereby the SBCFCD would offset a proportional amount derived from the use of the former San Bernardino Regional Emergency Training Center property under the previously approved license agreement in the amount of \$1,263,282. Such amount is then deducted from the \$2,805,204 annual aircraft rescue and firefighting staffing services agreement for full 24-hour staffing of the Airport Fire Station for ARFF services in support of commercial passenger and related operations per FAA requirements. The balance then due and payable would be a net amount totaling \$1,541,922, which amount would be paid in equal monthly installments by SBIAA to the District. A copy of the revised contract for Fiscal Year 2026/27 is attached for reference.

Staff recommends that the Commission approve the above recommended action.

SUBJECT: CONSIDER AND DISCUSS THE SBD GOOD NEIGHBOR PROGRAM THIRD QUARTER 2026 REPORT

SUMMARY

The San Bernardino International Airport (SBD) continues to be a leading economic contributor to the region it serves, with jobs and aircraft activity increasing steadily in recent years. Commercial passenger service, air cargo operations, and supporting airport facilities will continue to bring career opportunities, travelers, goods, and prosperity to the region, but may also lead to questions and concerns from those who live and work nearby. The SBD Good Neighbor Program is designed to help the Airport educate, listen to, and learn from the community it serves.

The SBD Good Neighbor Program is designed to inform residents and business owners about what to expect from operational changes at the Airport, and how developments will benefit the community, while providing a two-way communication channel that facilitates information sharing with community members. By committing to ongoing dialogue, sharing up-to-date information, and increasing opportunities for well-paying jobs, this program will ensure the Airport remains a good neighbor now and into the future.

BACKGROUND INFORMATION

In recent years, aircraft activity at SBD has continued to evolve and grow across aviation segments. Balancing future growth with long-term community expectations requires careful planning and transparent delivery of consistent two-way communications in support of aircraft noise management programs and community initiatives. Effective communications are designed to minimize unanticipated impacts that may constrain future airport capacity and development needs.

Through technical tools and specialized services supporting the SBD Good Neighbor Program, each quarter a report will be shared with the San Bernardino International Airport Authority (SBIAA) Commission, the Federal Aviation Administration (FAA), and the community. The report will review ongoing outreach initiatives, aircraft activity, and a summary of aircraft noise concerns by the numbers. Since Fall 2019, Staff has worked with industry partners to develop a responsive and informative program that includes Aviatrix Communications, LLC, a firm specializing in aircraft noise management programs and community outreach initiatives. The firm's principal partners have led aircraft noise management efforts and community outreach initiatives at noise-impacted airports around the country, including San Diego and San Jose, among others.

An oral report and presentation will be provided at the meeting.

For informational and discussion purposes.

Disclaimer: SBD Good Neighbor Program

SBD Good Neighbor Program Noise Report presents noise monitoring information managed by the SBD Good Neighbor Program. SBD International Airport has no authority over the movement of aircraft or the direction of flight. The authority to regulate flight patterns of aircraft is vested exclusively in the Federal Aviation Administration (FAA). FAA air traffic controllers have the responsibility for directing aircraft on the ground and in flight, and the pilot in command has the final authority as to the safe flight of their aircraft. Pilots in command make the final decisions relative to runway use; therefore, pilots may request to use any available runway. Neither the airport nor the FAA air traffic controllers may restrict a pilot's access to an available runway.
